

# A PLACE TO BE

## CULTURE AS MAKING AND PERFORMING

Music Performance Space

Theater & Dance, Event Space

Art classes & Workshops

Arts Industry Training/Apprenticeships

Music and Business Education Services

Spaces for music and theater performances create community engagement through a cultural activity. Music, for example, brings all members of the community together through a shared language and experience.

Facilities for artists and performers to give lessons allow for youth to connect to elderly community members and share conversations around shared interests.

Aspiring creatives learn to turn their passions into productive and thriving business enterprises; specialized niches like instrument repair are also nurtured.
