

Core Services

Athletic Facilities

Athletic and recreation facilities providing youth with extracurricular activities and places for community engagement. The facilities can accommodate a wide range of both pick-up and organized sports and provide all members of the community with a place to come together. Teaching and coaching opportunities for sports are created as well as foundations for youth and/or adult leagues.

Professional Education Services

Classes and educational services focusing on the professional sports industry through the lens of “excellence through application.” They will provide students with industry level skills and knowledge and opportunities to apply them using software, equipment, and activities that mirror those in the world of professional sports (marketing, branding, medicine). In addition, students are given practice improving their career-related skills (personal management, teamwork, problem solving, and communication).

Support and Mentoring Services

Providing students with connections and mentors from within the professional sports industry. Professionals are able to give back to the community and provide knowledge while introducing students into work environments and preparing them for life after sports.

Community Engagement
